

Institute for Global Economics - DGB Financial Group International Conference

# Towards A New Financial Horizon: Challenges and Opportunities for ESG and Digital Transformation

Date October 26, 2021  
Location Hotel Susung, Susung Square 3F Convention Hall  
Daegu, South Korea

## Invitation

Today we are at a critical turning point in human history and innovation. The global political and economic ramifications of the pandemic have signaled fundamental shifts in national policies and the corporate management paradigm, and sustainable growth is emerging as the most important strategic target. While unprecedented massive stimulus and rapid vaccine development are driving a fast recovery, new challenges are still emerging in the way of mutating COVID variants and the widening gaps in global recovery. This crisis has shown us that drastic changes are needed to promote eco-friendly industrial systems and digital platform innovations that will support the spread of ESG management and the development of a sustainable future.

Against this backdrop, the Institute for Global Economics (IGE) and DGB Financial Group invite you attend our international conference, which will be held on October 26, 2021 in Daegu, South Korea, on the theme of "Towards A New Financial Horizon: Challenges and Opportunities for ESG and Digital Transformation." We aim to provide a platform for in-depth discussion on issues relating to financial digitization and ESG management.

As the attached program shows, the conference will be led by renowned global leaders, including the 8th UN Secretary-General Ban Ki-moon and Nobel Laureate Joseph Stiglitz. Keynote speeches and panel discussions will take both in-person and online, exploring alternatives to national policies and corporate strategies in the post-COVID New Normal. The conference will also be livestreamed on YouTube.

I hope you will join us at this conference.

Thank you.

October 2021
